

## Mitel MiTeam

Enhanced collaboration software for teams and projects streams

### A BETTER WAY TO COLLABORATE

MiTeam is a Mitel workstream communications and collaboration tool that provides an effective and highly collaborative workspace for team-based meetings, conversations and content collaboration.

- Reduce emails
- Break down barriers
- Increase productivity
- Shorten time to market

An always-on, mobile-first collaboration solution for the way teams work together

### ALL THE TOOLS YOU NEED

MiTeam seamlessly integrates into Mitel's MiCollab tool to allow you to effortlessly collaborate with teams of any size, including powerful messaging, content sharing, white boarding and real-time voice and video meetings.

All the collaboration tools you need are at your fingertips in an intuitive and open environment.

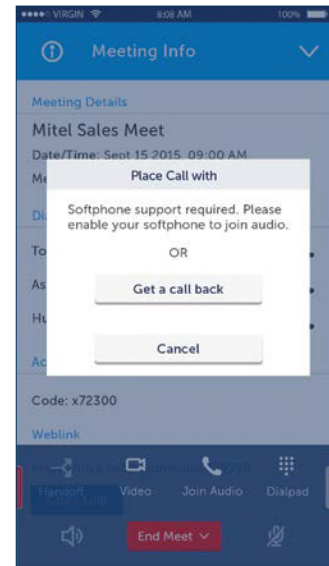

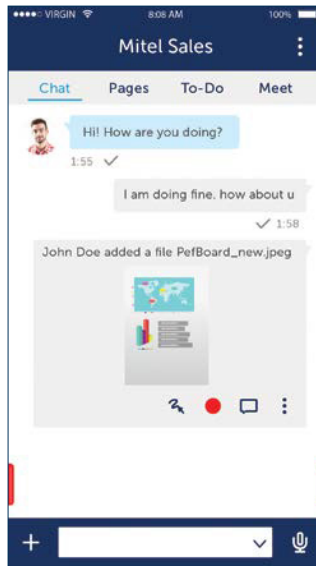

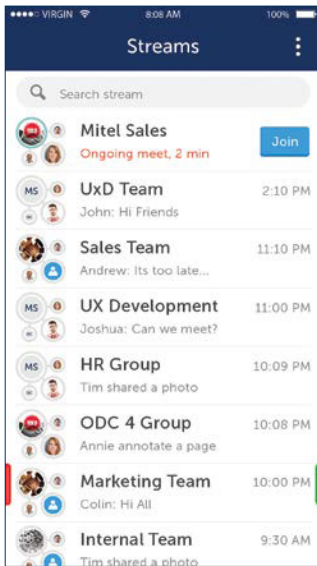

### MANAGE PROJECTS BETTER

Keep up with multiple projects, stay connected with colleagues and clients, and reduce emails. Consolidate teamwork capabilities into a single window:

- Centralise chats and share content
- Pictures, videos and presentations
- Use collaborative white board sessions
- Add rich graphic and vocal notes

# Mitel MiTeam

## Keep it all Together

MiTeam seamlessly synchronises everything relevant to your team into Streams, making teamwork easier and faster – whether your project lasts a day or a year, with two people or twenty.

## Be More Productive

Streams are persistent, highly collaborative workspaces, which continuously archive your team's history of messages, content, annotations, and tasks for future reference.

## Real-time, Anytime

Instantly start a real-time voice or video collaboration session with colleagues, partners or customers, directly from your mobile device, with advanced call-control capabilities.

Store it, find it, share it

Connect virtual teams

Use on multiple devices
